August 18, 2017

To our Library Community:

August is typically the month where libraries get to take a deep breath while Summer Reading Club begins to wind down. This does not seem to be the case here at Hershey Public Library! This month started out in full-force because of the Friends of the Library Book Sale which brings hundreds of additional people through our doors in a weeks' time. The army of volunteers who work towards the sale all year, the Hershey High School Football team who helps move all our boxes, and the Derry Township Police who provided extra security over these days made the event even more remarkable. We couldn't be more grateful to the Friends of the library who help support Hershey Public Library every day.

The Book Sale wasn't the only thing keeping us busy over the past few weeks. Eclipse Fever is in full-swing in Derry Township. The upcoming Solar Eclipse has garnered much attention over the past few weeks and we're doing our best to keep up. We were the lucky recipient of over 1,000 Eclipse Viewing Glasses provided by NASA and had been distributing them free to the community until we quickly ran out. We do have enough glasses reserved for those who registered for our Solar Eclipse program and we're so excited to celebrate this celestial event! This library truly is, out of this world!

Kindly,

Laura O'Grady
