January 9, 2020

To our library community:

Happy New Year! With a fresh layer of snow on the ground we're eager to dive right in to 2020. To jump start your reading goals, sign up for the Adult Winter Reading Program, *The Reading Vegetable Garden*. Each vegetable in your garden is a different genre, and the more books you read, the greater your chances to win the raffle prize! Every year we're surprised by the clever themes our Adult Programming Librarian comes up with and this year is no exception. We also invite you to stop by to pick up our newest program booklet, which covers programs from January 1 through May 31. While the end of May seems far away, we're sure the next few months are going to fly by. Speaking of which...

Our construction project seems to be on schedule with the majority of the disruption to be isolated in January and February. We hope to be putting the library back together by March with a newly updated library to debut in April. Stay tuned for a ribbon cutting celebration to commemorate all the hard work that went into this exciting project. For now, just sit back, relax, and read some carrots, broccoli, and celery and before you know it, it'll be Spring.
